### **DETAILED ACTION**

Claims 1-19 are currently pending.

Claims 1-4 and 17-19 are under consideration.

Claims 5-16 are withdrawn from consideration as being directed to a nonelected invention.

Applicant's amendment (dated 9/17/01) in paper no. 8 and Applicant's supplemental response (dated 9/26/01) in paper no. 9 is hereby acknowledged.

In view of applicant's amendment (e.g. addition new claims), the following election of species requirement is required.

#### ***Election/Restriction***

#### **ELECTION OF SPECIES (For Search Purposes Only)**

1. Claims 1-4 and 17-19 (especially new claims 17-19) are drawn to the use of a plurality of disclosed patentably distinct peptide compound species which differ structurally (e.g. amino acid sequence and content) and would be expected to possess different biological and physicochemical properties and which are capable of separate manufacture and/or use; and as such would result in different and separately burdensome manual/computer sequence, structure, classification and/or bibliographic searches.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species (e.g. a single peptide compound), even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to

be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
